

FLASHMAX

Foundry and welding boots

Technology

DDR

SRC

Open Cell PU Footbed

RUBBER / RUBBER ABRASION
RESISTANT OUTSOLE

Features

Standard	EN ISO 20349: 2017
Category	S3 HI3 HRO SRC Fe
Code	F2AR1342
Product type	Protective Foundry Boot
Colour	Black
Size range	UK sizes 5 - 13 continental 38 - 48
Weight	1040gr
Upper	Full grain cow leather
Inner lining	Moisture wicking textile
Safety features	Protective midsole Aluminium protective toe cap SRC rated slip resistance

Additional features

Flame resistant stitching
Quick release overlap with velcro fastening

Soling technology

Injected Dual Density Rubber soling system featuring a high compact nitrile rubber outsole and a less dense air injected midlayer for comfort and shock absorption. It is heat resistant throughout to 300°C and has a high grip (SRC) outsole. This sole construction has a high bond strength between the upper and sole unit, and high abrasion resistance properties.

Insole technology

Removable and washable PU insole
